Create a Connection

1. Open Remote Access from the Control Panels under the Apple Menu.

2. Enter your Medical Domain login and password, this will usually be the same as your e-mail username and password. In the example below, if the email address is demouser@med.miami.edu, the login username is “demouser”.
3. Check **Save Password**.

4. Enter the phone number **305-243-1039**.

---
