Medical Center Dial-Up  
- Windows 98 Instructions

Create a Connection

1. Click on the Start button
2. Go to the Program menu
3. Select Accessories
4. Select Communications
5. Click on Dial-Up Networking

6. A new window like the one below will open, double click on Make New Connection

7. You will be asked to name your new connection – Enter Medical Center Dial-Up and select the modem from the drop-down list.
8. Click Next.
9. Enter the area code and phone number for the Dial-Up connection – enter the values as below, 305 for area code and 243-1039 for the phone number and United States of America as the Country and click Next.

10. You will be presented with the following screen to let you know that the connection has been set up successfully.

11. Click Finish
12. To make a shortcut on your desktop, go back to the **Dial-Up Networking** window (from step 1) and right-click the Medical Center Dial-up icon and select "Create Shortcut" as below:

13. You will see a pop up window asking to place the shortcut on the desktop; select **Yes** and the icon will appear on your Desktop:
14. The icon will appear on your desktop as below:

![Desktop Icon](image)

15. To connect to the Medical Center Dial-Up, double click on the icon and you will see a login window. Here you will enter your username on the Medical Domain – for example, if your email address is demouser@med.miami.edu, your username will be demouser – your password will be the same as your email password for that account. If you have a problem with your password, or would like to reset it, please contact our helpdesk at 305-243-5999.
