Medical Center Dial-Up
- Mac OS X Instructions

Create a Connection

1. Open a Finder window and browse to your Applications folder, find the Internet Connect application and double click it.

2. Internet Connect will open in a window like the one below:

3. Click on the Configuration drop-down list and choose Edit Configurations:
4. A new window will appear, like the one below, you will need to enter a name for the connection, such as Medical Center Dialup and the telephone number, 3052431039. If you would like the application to remember your username and password, enter them here. If you do not enter them here, you will be prompted for them when you connect. Click OK

5. You will see the first window again, with all the information filled out, as below, place a checkmark in the **Show modem status in the menu bar** box, if you would like the menu bar to have a modem icon that you can click on.
6. To connect to the dial-up, click the **Connect** button and the fields in the Internet Connect window will gray out while your modem begins the connection to our dial-up.

7. Once you are connected, you will be able to access all our on-campus resources.
